Company Profile

BodyLytics Academy is an online training platform for non-verbal communication and body language, built on the frameworks of Joe Navarro and Paul Ekman. Founded by Sean Johns, a body language and NLP trainer holding certifications from the Joe Navarro Body Language Academy, the Paul Ekman Group, AEPNL and the Centre of Excellence, with 10+ years of coaching experience. Courses run beginner to advanced, self-paced or live, for individuals and teams in HR, sales, hospitality, and leadership. Serious training, without the mythology - no percentage claims, no mind-reading, just baseline-and-cluster observation read in context.

Public Information

BodyLytics Academy trains non-verbal communication and body language skills for individuals and organisations. Courses cover Body Language Basics, Neuro-Linguistic Programming (Basics and Advanced Mastery), and sector-specific Non-Verbal Communication courses for Human Resources, Hospitality & Retail, Leaders, and Sales Professionals, plus the comprehensive Body Language Master Class. Founder Sean Johns holds certifications from the Joe Navarro Body Language Academy, the Paul Ekman Group, AEPNL, and the Centre of Excellence, with 10+ years of coaching and training experience and a background of 20+ years in senior IT leadership across banking, gaming, and EV industries. Delivery formats: Self Study (self-paced, on-demand video), Cohort (live small-group sessions, max 15), and VIP (private 1:1 coaching with the founder). Every course includes a completion certificate on assessment. Brand position: "Serious training. Without the mythology." BodyLytics deliberately avoids common body-language marketing myths - no claims that a single gesture reveals a lie, no "percentage of communication is non-verbal" statistics, and no promises of instant deception detection. Training is grounded in baseline-and-cluster observation, read in context. Based in Barcelona, Spain, serving learners across Spain, the UK, and Ireland.
